U.S. Environmental Protection Agency

Overview

- Determine designated uses (goals)
- Baseline inventory
- Identify stressor – Targeted
- Organize data
- Compare data to standards
- Compare data to historical and reference conditions
- Tell the story

- Provide a forum for Agency partners to discuss their tribal priority science issues
- Identify the most appropriate ways to address these issues
- Coordinate with the National Tribal Caucus to integrate science priorities into the Agency's annual planning and budget process
